Shipping Information

Dimensional Weight

FedEx may assess transportation charges based on the volumetric standard. Dimensional weight for shipments traveling within the U.S. is calculated by multiplying the length by width by height of each package in inches and dividing by 194. If the dimensional weight exceeds the actual weight, you will be charged based on the dimensional weight. Dimensions of 1/2" or greater are rounded up to the next whole number; dimensions less than 1/2" are rounded down. The final calculation is rounded up to the whole pound. Dimensional weight can be applied to packages or shipments greater than 12" x 12" x 12".

Extra-Large Packages

Packages that exceed the normal FedEx Express Package dimension restrictions of 165" in length and girth combined may be accepted and shipped as FedEx® Express Freight service shipments. Packages exceeding FedEx Express Freight dimensions will not be accepted. Maximum dimensions for FedEx Express Freight shipments are 119" in length, 70" in height, or 300" in length and girth combined. A minimum billable weight of 151 lbs. will be applied to these shipments.

Here's how to calculate the length and girth of a package: length plus (2 times the height) plus (2 times the width). If the dimension includes a fraction, a fraction 1/2 or greater will be rounded up to the next whole number; less than 1/2 will be rounded down to the next whole number.

Declared Value

The maximum declared value for any FedEx® Letter and FedEx® Pak in a shipment is \$500. For shipments in other packaging, the maximum declared value is \$50,000. Please see "Declared Value" in the Service Conditions section of the FedEx Service Guide for details. Declared value charges are determined as follows:*

DECLARED VALUE	CHARGES
\$0.00-\$100	\$0.00
\$100.01-\$500	\$2.50 minimum
\$500.01-\$50,000 maximum per package	\$0.50 per \$100 of value

* See p. 22 for U.S. FedEx Express Freight rates.

Hundredweight/Per-Pound Rates

Multiple-piece shipments on a single FedEx® USA Airbill to one destination are rated on a price-per-package basis and on a price-per-total-shipment-weight (hundredweight) basis (assuming a 100-lb. total weight minimum and a minimum per piece charge equal to the 5-lb. rate per package). You are billed the lower of the two rates. See charts entitled "Hundredweight/Per-Pound Rates" on previous pages.
